Tax Rate Impact Analysis

Financing Scenario and Summary of Assumptions

We present the following scenario for the District's consideration:

Scenario A - \$79,430,000

to \$.355 per hundred, an increase of 16.5 cents. Issue unlimited tax bonds, in two installments, to fund the construction, renovation and equipping of school district facilities. Total proceeds to the District are currently estimated to be \$79,430,000. This scenario would take the District's I&S tax rate

Scenario B - \$65,260,000

to \$.335 per hundred, an increase of 14.5 cents Issue unlimited tax bonds, in two installments, to fund the construction, renovation and equipping of school district facilities. Total proceeds to the District are currently estimated to be \$65,260,000. This scenario would take the District's I&S tax rate

The projected cost of the new bond program is based on the assumptions detailed below:

- Assumes a bond election in May 2017 with bond sales in July 2017 and July 2019.
- Assumes current market rates of interest plus 70 basis points (0.70%). (Subject to change.)
- Assumes the Series 2017 and Series 2019 Bonds are amortized over a 30-year period with a 10-year optional call @ par (final maturity August 15, 2047 and August 15, 2049, respectively)
- Assumes the District's Fiscal Year 2016/17 Interest & Sinking Fund tax rate is 19.0 cents. Any tax rate increase is based off of this amount and will take place in fiscal year 2017/18.
- Assumes the District's 2016/17 taxable assessed valuation is \$2,248,235,220 and will grow 5%, 4% and then 3% for 3 years and remain constant thereafter.
- Assumes a tax collection rate of 99.0%.
- Assumes the District uses \$250,000 of its existing I&S fund balance to maintain a maximum tax increase of 16.5 cents.
- Assumes the Series 2017 Bonds and Series 2019 Bonds will be eligible for the PSF guarantee

may be different than what is shown herein. analysis does not contemplate the average life of the assets being financed and as such, the ultimate tax rate impact and debt service associated with the new financing District administration and Bond/Tax Counsel have a chance to thoroughly review the financing plan and do a full tax analysis on any contemplated issuance. Bond/Tax Counsel will need to review the useful life of any assets being financed (especially technology improvements) against the average life of the proposed bond issue. This Please note that the above scenarios are preliminary and the projected results are subject to change as interest rates fluctuate, more structuring dialogue takes place with

Current Market Overview

Economic Update

U.S. Economic Overview

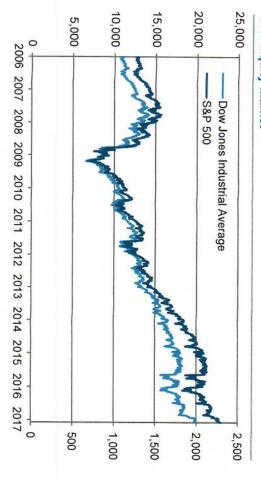

- US equity markets were little changed last week; the DJIA slipped 0.11% as the SPX and Nasdaq gained the same.
- Investment-grade supply totaled nearly \$46bn last week; corporate entities issued \$178bn in January.
- Central bank meetings from the FOMC, BOJ, and BOE came and went with little fanfare last week.
- The FOMC statement expressed greater confidence that inflation would rise to 2%
- Chair Yellen will address economic conditions in greater detail at the Humphrey-Hawkins testimony next week
- The January payroll report was a mixed bag; NFP rose a solid 227k, but wage growth was softer than forecast.
- The unemployment rate edged up to 4.8%, and the underemployment rate rose from 9.2% to 9.4%.
- Economic highlights: jobless claims, wholesale inventories, and Univ. of Michigan Consumer Sentiment.

RBC Economic Outlook and Interest Rate Forecasts(1)

	Q1'17	Q2'17	Q3'17	Q4'17
Real GDP (QoQ)	3.00	2.30	2.50	2.60
Core Inflation (YoY)	2.10	1.90	2.10	2.10
Unemployment	4.50	4.40	4.30	4.20
IOER ⁽²⁾	0.75	1.00	1.00	1.25
2-Year Notes	1.20	1.40	1.55	1.80
5-Year Notes	1.90	2.10	2.25	2.45
10-Year Notes	2.40	2.65	2.80	3.00
30-Year Bonds	3.00	3.20	3.35	3.50

- 23 RBC Rate and Economic Forecast as of January 27, 2017.
- Interest on Excess Reserves RBC expects IOER, not the Fed Funds effective rate, to be the targeted policy rate in the initial stages of the tightening cycle.

U.S. Treasury Rates

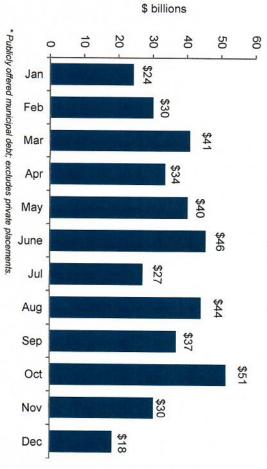

Municipal Market Update

Municipal Market Overview

- Municipal Supply in 2016: \$445 billion (includes private placements)
- RBC Forecasted 2017 Municipal Supply: \$375-400 billion (\$36 billion YTD)
- Municipal supply totaled \$32bn in January, up 25% from January 2016.
- Supply totaled a modest \$4.3bn last week; this week is expected to bring a manageable \$7.4bn calendar.
- Issuance out of Cal State University, Salt Lake Airport, NYC, and Oregon will account for 45% of the supply.
- Municipal bond funds reported modest inflows of \$14mm, marking four consecutive weeks of inflows.
- The Treasury will auction \$24bn 3s on Tuesday, \$23bn 10s on Wednesday, and \$15bn bonds on Thursday

4,999,011,713	Less: 5% Capacity Reserve
\$98,884,229,779	Max Allowable For Guarantee Under State Law
Current Guarantee Limit	Description

⁽¹⁾ The PSF Summary is based on the capacity limit of 3.25 times the lower of cost or market value of the fund which became effective February 1, 2016.

⁽²⁾ At its January 2014 meeting the SBOE approved rules governing participation of Charter Districts in the Program. Chapter 33.67 stipulates that Charter District guarantee capacity shall be based on a ratio of charter students to total public school students, as annually determined by the Commissioner of Education (currently 4.68%), applied against the available capacity of the Bond Guarantee Program. The available capacity is defined in Chapter 33.65 and 33.67 as maximum allow able for guarantee less total amount of outstanding guaranteed bonds, and less the SBOE-established reserve.
